By the Federal census of 1800 there were 6,000 mines in this country producing both gold and silver. In the same year there were more than 185,000 factories turning out manufactured products. There were more than thirty times as many factories as mines of gold and taken the hopeless task of trying to silver put trgether. The mines employed 60,000 men. The factories employed

No extra session, no tariff agitation, no fooling with business prospects; that is the people's platform just now.—Portland Argus.

It is barely possible that the Argus is not authorized to define "the people's platform." It is only a few weeks since it had the names of Bryan and Sewall at the head of its columns as the "people's?" candidates, but the people had no use for those gentlemen and so declared with upprecedented emphasis. Moreover it was Democratic "fooling" with the tariff that effectually knocked out business prospects and the people have turned to the Republicans to apply the needed remedy. Many of the business Democrats in this State are just as eager as the Republicans for Republican tariff

Mucker-Muck" of Tammany Hall is figing his kite lower than he was in October last. Then he insisted that the men FUR REPAIRING OF ALL KINDS in the Democratio party who were opposed to the election of Bryan were traitors and added: "Every leader of every district will mark the traitors. Never, now, or hereafter, will any traitor be recognized in Tammany Hall." All this was prior to the election and the edict failed to strike terror to the hearts of the opponents of Bryan. Now the same Sheehan says that "many of our friends" for "reasons satisfactory to themselves" saw "fit to oppose the posttion taken by the organization during the late campaign," and "their right to do so cannot be questioned." Six weeks ago they were "never" to be recognized, while now Sheehan declares that "we must grant to them the same rights as re claim for ouselves," and "I believe that in the future they will be found working for the success of this grand old organization." At last accounts Brynn was very severe in bis denuncistion of the "traitors" who refused to swallow his repudiation scheme, but inained of reading anyone out of the Demcratic party he will probably land himself in the Popular party.

No kitchen is kept cleaner than the premises devoted to the manufacture of NONE SUCH Mince Meat. No housewife can be more fastidious in the matter of preparing food N than we are in the selection and preparation of the materials of which it is made. The cleaning of the currants (for one thing) is more thoroughly done by means of perfected appliances, than it would be possible to do it by hand. Its cleanliness, parity, wholesomeness and deliciousness

are good reasons for using NONE SUCH Mince Meat. The best reason is its saving of time, of hard work, of money. The Maine Central Railroad Company is constantly making improvements for the comfort of its patrons and looking toward the pleasure of the traveling public. As the most disagreeable feature of summer travel is the dustthat question is now receiving the attenbeen under way for some months and a long stretch of the track this side of Brunswick is already ballasted with the crushed stone. Over this piece of track the beavy express trains, loaded with summer tourists, whirl along without a particle of dust blowing in at the open windows. A crew will be kept at work putting in the ballast as long as the ground is free from freet and probably considerably more of the road bed will be improved this fall. The work will be pushed aboad in the spring and it will not be many years, at the longest, before the main line will be all rock ballant and the Maine Central will have the best

road bed in New England. Don't let rheumatism settle on you this month. Try Johnson's Anodyne Liniment, never falls.

CENTRAL CLUB COURSE.

A Most Interesting Lecture by Mrs. Mary A. Livermore. The second lecture in the Control Club course was delivered last evening at the Central church by Mrs. Mary A. Livermore, who is always warmly welcomed in Bangor as the people of this city know that they will hear much that is interesting, instructive and entertaining Quite a number from this city intend from the celebrated lady. The good sized audience last evening was not disappointed and had the pleasure of hear-

ing one of Mrs. Livermore's best lectures. Her subject was: "Emigent People Whom I Have Met." Mrs. Livermore said the first emirent person whom she remembered to have met was Horace Manu and she told of her first meeting with him while buying tickets to a lecture. That he was a superior man was shown by his life. He sank his own interests for those of others. Mrs. Livermore compared him to Daniel Webster, unfavorably to Webster, whom she said worked always for himself, half his life being passed in the chase for the Presidency. M. S. C. TRUSTEES.

Meet Monday Evening in this City-Members of the Legislature will visit the College Today.

The trustees of the Maine State Col. lege held a meeting last evening at the Bangor House. The following members were present: President Henry Lord and Mesers. B. F. Briggs, W. T. Haines, L. Moore, Elliott Wood, C. P. Aller and Treasurer I. K. Stetson. Messrs. G. J. Shaw and R. B. Shepherd were not in attendance.

General matters relating to the welfare of the college were discussed but no action of a public nature was taken.

To-day the members of the Legislature have been invited to visit the college and it is expected that quite a large number will come to Orono. The various huildings will be inspected and the different departments of study and work will be examined with President Harris and members of the faculty. At noon lunch will be served.

It must be remembered that Harvard did not have her best team when she met the Tigers. The regular tacktes, Haughton and Wheeler, who played such a splendid game against Pennsylvania, were then on the injured hat. Capt. Wrightington was unable to play against Princeton, and his leadership certainly would have

made it more deflicult for the Jerseymen to defeat Harvard. The other changes in 'the Harvard team were of minor importance, excepting the retirement of Cabot and other

players on account of injuries. Harvard put in her very best team against Pennsylvania, and if the eleven that lined up against the Quakers had beco properly handled during the preliminary season, there is every reason to believe that the Crimson would have hoisbed in first place instead of fourth. Penney is entitled to second place, notwithstanding the fact that she lost a game to Lafayette. This is the only blot on Pennsylvania's escutcheou, barring a

safety scored by Dickinson. Penny made the best showing of any of the big four against the Indians, and were it not for internal dissensions among the members of the Quaker team, Penny would no doubt have had a clean record in games won.
